

Phone Instructions

1. Go to Twitter.com and create an account
2. Once you've created an account and logged in, click the Follow button on the CCSO profile page: <http://twitter.com/ccsotraffic>
3. Go to the settings page to add your phone number and generate a secret code: <http://twitter.com/devices>
4. Text the secret code to Twitter at 40404 to verify your phone; you'll receive a confirmation from Twitter letting you know it worked
5. Send FOLLOW ccsotraffic from your phone to Twitter at 40404 to start getting CCSO updates.

6. Send OFF at any time to stop getting messages, and ON to start getting them again.

Web Instructions

1. Go to Twitter.com and create an account
2. Once you've created an account and logged in, click the Follow button on CCSO's profile page: <http://twitter.com/ccsotraffic>
3. To turn text updates on for your phone, click the small triangle to show "Notifications" options

4. Click ON to receive updates on your phone

5. To turn updates off, send OFF to Twitter at 40404 from your phone; send ON to receive updates again

Note: if you skip web sign up and don't have a Twitter account and you still send "follow ccsotraffic" to 40404 from your phone; we will reply by text message asking for a user name.

You will text back a user name, and then you will have a mobile account and receive updates. That process is pretty easy.

You can later complete web sign up here: <http://twitter.com/account/complete>
